

Health, Safety & Environmental Policy

IHCC is committed to the protection of all its employees, subcontractors and visitors against injury and ill health in a manner that prevents and minimizes environmental pollution and resource depletion.

IHCC shall focus on continual improvement in Health, Safety & Environmental Management and performance to minimize OH & S risks and environmental impacts related to its construction business through the following principles:

- ★ Focus on prevention of pollution; maintain a safe and healthful working condition, prevention of injury and ill health, waste minimization and resource conservation as critical considerations within our core management processes.
- ★ Compliance with applicable legal requirements and other requirements to which the Company subscribes which relate to its environmental aspects and Health & safety Hazards.
- ★ Regular performance reviews to ensure that EH & S objectives and the requirements of Interested Parties are met.
- ★ Provision of staff training to ensure understanding, implementation and development of these principles throughout our business.
- ★ Continual improvement

All staff will follow the requirements of the EH & S Management System in the performance of their tasks and will ensure this policy is supported and maintained. This policy will be reviewed periodically and communicated to our customers, suppliers, and subcontractors. It will also be made available to the public whenever requested.
